We founded TANGER SAFARIS to offer our guests unforgettable safari experiences with passion and commitment. For making your safari dream come true. Maybe you already know Africa and love it. Have already succumbed to the fascination of this continent with all its diverse landscapes, the warmth and attitude to life of its people, despite all the contradictions. Or you are inspired by „.... Experiencing all this for yourself“.

How much does a safari cost? The following are decisive for the costs:

- Travel season and duration of your safari.
- Which national parks and how many do you want to visit?
- Would you like further travel offers such as day trips?
- What standard of accommodation and type of catering is chosen.

Entry-level for a 5-day private safari for 2 people (without international flight) in mid-range accommodation in low season with full board start from around 2,000 US\$ p.p.

The Best Destinations in The North

Serengeti National Park

Tarangire National Park

- Day trips during your stay in Zanzibar

Safari is waiting for you

- ✓ Indescribable variety of wildlife. From the "Big Five" to millions of wildebeest, zebra and antelope to name a few.
- ✓ Adventure on foot in the bush, on a game drive in the dark, on the back of a horse or silently in a hot air balloon.
- ✓ Cultural encounters with indigenous peoples of East Africa.
- ✓ Affordable accommodation according to European standards or ideal luxury lodges. From campsites in the savanna to private lodges on the beach.
- ✓ The warm and welcoming hospitality of the Tanzanian staff in your accommodations will make your urlaub unforgettable

Foreign guests need a visa to enter Tanzania.

It can be applied for online at <https://eservices.immigration.go.tz/visa/>.

The processing currently takes about 10 days.

We recommend requesting it at least 2 to 4 weeks before the start of the trip

Safari at Night

A safari at night?

In the dark, big cats such as lions and leopards go hunting in Tarangire National Park. Now the nocturnal animals venture out of their hiding places. Watch the Serval, other African wildcats, honey badgers and porcupines in the light of the powerful headlights on your safari vehicle. In Manyara National Park you have the rare opportunity to watch hippos in full size feeding at night.

The cone of light illuminates the stage for hunters and the hunted. Lions, sluggishly dozing in the sun during the day, now show their side as predators and rulers of the savannahs.

More than Game Drives

We offer you some highlights beyond to the usual safari programs. Follow our human ancestors on foot on a hike from Ol Doi Nyong Lengai volcano at Lake Natron to the Olduvai Gorge in the Serengeti. Or join the men of the Hadzabe people on their morning hunt. You may also want to enjoy the vastness of the African landscape from the air, from a paraglider. Experienced pilots in Kilimanjaro National Park will take you on this flying experience. Safari highlights for birdwatchers among you are perhaps less our "Big Five" than over 400 bird species in the northern national parks. You wish – We plan to inspire you.

Are there safaris for seniors?

No matter how many springs of your life you are in. On your private safari, only you decide the when, where and for how long. There are no constant group pressures. You will enjoy it relaxed when the varied landscape passes by on the game drive. A photo safari in Tanzania is an experience for all your senses.

You feel the wind when you look out of the open top of the Landcruiser for the Big Five, you hear the sounds of Africa in the bush and in the evening in your accommodation, you smell when you approach a hippopotamus pond before you see the animals and you taste a cool drink when you review the day in the evening. Safaris for seniors – they don't exist.

For seniors, there are bingo nights.

Dive into your honeymoon – on Pemba

Why have to choose when you can have both?

This gem of the Zanzibar archipelago, only 67 km long and 22 km wide, is located only 50 km east of the mainland in the turquoise waters of the Indian Ocean, and rightly bears the nickname "the green island". With only three hotels on the island, the list of accommodations is manageable. Pemba is a beach holiday and pure nature.

The island attracts romantic honeymooners with miles of deserted snow-white beaches. Pemba fulfills every tropical cliché without being cheesy. The underwater world of the island is considered by experienced divers as well as beginners as one of the best diving areas on the East African coast. Brave divers can spot hammerhead sharks in the island's waters or swim with whale sharks. The colorful diversity of the tropical coral world will delight every snorkeling enthusiast.

Aiyana Resort & Spa is our first choice for your stay on Pemba. It offers private villas right on the beach for unparalleled sea views. The resort organizes diving tours and guided island tours and much more. In the offers of the Spa you will find the relaxation you expect from a holiday in the tropics with soothing massages.

"First Tanzania makes you speechless – then you become a storyteller"

(from Ibn Battūta)
